

The anti-Kerry piece "Stolen Honor" that Sinclair Broadcasting is forcing their stations to show is not news, but is clearly a propaganda piece. The content has already been debunked by a 'Nightline' investigative report. Sinclair has the use of our public airwaves contingent on the requirement to use them to serve the public interest. Presenting this slanderous and inaccurate program as a news documentary is not in the public interest. Sinclair should either be prevented from showing it, or be required to give equal time to Kerry by showing either the anti-Bush "Bush Family Fortunes" or the pro-Kerry "Going Upriver" immediately following the broadcast. Thank you.
